

BMX AUSTRALIA

Transponder Hire Policy

Date adopted by the Board: 14th August 2017

Date Effective: 1st January 2018

From the 1st of January 2018, the BMX Australia Transponder Hire Policy will be:

BMX Australia will not hire or lease transponders to any riders for events run by BMX Australia. All events run by BMX Australia will require riders to have transponders fitted to their bikes. It will be the responsibility of the rider to purchase their own Mylaps transponder and ensure that it is fit for purpose for each event.

BMX Australia will endeavour to have emergency transponders available to cover any technical failures during an event, but this in itself cannot be guaranteed and should not be relied upon.
