Annex 1.

BMX Australia World Championship Qualification

The tables below define how riders will be selected for World Championship entry qualification where the Australian Classes run at the National Championships do not align with UCI World Championship Classes.

The criteria and subsequent selection for entry to the World Championships will only be applied to riders who by the BMXA advertised deadline have advised their intention to compete in the World championship should they make the qualification. Where the number of nominations for any World Championship Class be less than the maximum allowed quota, the remaining positions will remain vacant.

Applicable to all tables:

- The number of nominations for each Australian Class is based on the class entered at the National Championship and is independent of any subsequent merges to make up minimum class requirements for racing.
- Undersubscribed nominations for World Championship entry are distributed on the following basis.
 1. All undersubscribed nominations are first assigned to the class at the top of the table.
 2. Should the class at the top of the table be undersubscribed, then the subsequent vacancies move down the table (vacancies accumulate downwards).
